

ORACLE®

Getting Mobile with EnterpriseOne

ORACLE®

Cindy Grim
Sales Consultant

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions.

The development, release, and timing of any features or functionality described for Oracle's products remains at the sole discretion of Oracle.

Mobility Trends

Mobility is having a huge impact on business. Employees are expected to perform critical tasks and decision making in real-time no matter where they are located.

According to IDC, By 2015, the world's mobile worker population will reach 1.3 billion, representing 37.2 percent of the total workforce. In 2010, 75 percent of the North America workforce were mobile workers.*

****"Worldwide Mobile Worker Population 2011-2015 Forecast," (IDC, 2012)***

World Population and Internet Access

- Over **3.6 billion** people own or have access to mobile device today
- **1.6 billion** (25% of world population) have access to the web through **a mobile device**
- **1.1 billion** people have access to internet-connected **desktop computers**
