

An aerial night photograph of a busy port. A large container ship is docked at a pier, its deck filled with stacks of colorful shipping containers in shades of red, blue, yellow, and green. Several large gantry cranes are positioned along the pier, their structures illuminated by bright lights. The water in the foreground is dark, reflecting the lights from the ship and the pier. The overall scene is a vibrant display of industrial activity at night.

NAVIVUE ANALYTICS (formerly Velocity Zoom)

Using NaviVue to Recognize Work Patterns

Using the transaction monitor you can recognize patterns in a work day and make functional or technical decisions.

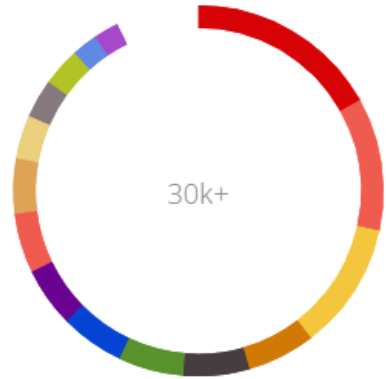

Thursday would be a good day for a meeting as people are less productive during these hours

This might be a good time to schedule a large report

One day is busier than any other - How do we spread the workload more evenly
